

installation of reconstituted sandstone tables

I understand that Provincial Plants and Landscapes will arrange delivery and installation of this product by an independent freight company insofar as the installation is not hindered by unsafe conditions such as follows:

- Any Steps or multiple flights of stairs (even small steps will prevent installation)
- There is to be no, gravel, grass, wet or slippery surfaces
- Steep driveways or walkways unsuitable for delivery by forklift or installation by piano trolley
- Loose pets
- Narrow walkways
- Corners

All areas must be completely clear, there are to be no obstacles e.g., hose reels and toys, nor any other conditions that will render the installation unsafe as per Occupational Health & Safety guidelines.

Should the installation be forestalled on the day by wet weather, Provincial will reschedule with no extra charge. If installation is deemed unsafe by the installer, the installation will be cancelled and all responsibility and costs will be passed onto the client.

The cost of the installation is additional to the product cost and will depend on your location, to be quoted at the time of placement of order.

Provincial reserves the right to refuse installation if the above conditions are not met.

I have read the above and agree to these installation conditions
