

Lomandra dalliance™

neat and tidy, strong architectural form

strong, vibrant form, easy care and enduring....

what more could you ask for?

This exceptional *Lomandra longifolia* cultivar is a particularly tidy and handsome specimen. It dilly-dallies in time and space in the most glorious of fashions, persisting where others fail to endure. Its strong architectural form creates a beautiful focal point in a garden

Lomandra dalliance™ exhibits an abundance of pale yellow blooms which are held tightly amidst its fine, upright, strongly sculptural foliage. Its neat and tidy nature is a true delight

Lomandra dalliance was developed as part of 'The Provincial Collection' by Provincial Plants and Landscapes, Australia's NGIA Hall of Fame + National Environment Award Winners

description	Narrow, upright , fast growing, hardy and long lived
maintenance	Remove thatch to promote new growth. Water every 4 weeks in extreme drought or dry heat conditions
care	Water as needed for first 2 - 3 months until established. Best results in mulched gardens. Apply slow release fertiliser once a year in spring
tolerates	Light frost, moderate drought conditions
flowering	Spring through to summer
flower colour	Lightly fragrant pale yellow clusters along flower spike
position	Performs well in both full sun and part-shade environments in most soil conditions
height x width	60cm x 50cm in full sun
spacing	50cm apart for mass planting. 60 - 80cm apart for specimen planting
uses	Specimen, and mass planting, container plant, filler and background plant in gardens

bred for endurance

Lomandra dalliance™
