Major Plant Supply	5 - 7
New Estates and Subdivisions	8 - 14
Revegetation and Rehabilitation	15 - 24
Wetlands and Water Quality Ponds	25 - 32
Playgrounds and Parks	33 - 39
Commercial Landscaping Public Spaces	40 - 50

Projects List for Case Studies

major plant supply

- Majura Parkway - (600,000 plants)
- Canberra Light Rail – 12kms Gungahlin to Civic ACT (1.8 million plants)

new estates and subdivisions

- Brindabella Estate 1 and Estate 2, West Macgregor ACT
- Ginninderra Estate, Ginninderra ACT
- Broadview Estate, Ngunnawal, ACT
- Forde Estate I maintenance, Forde ACT
- Dunlop Parkside Estate, Dunlop ACT
- Franklin Stonebridge Estate, Franklin ACT

revegetation and rehabilitation

- Barrer restoration, Molonglo (NES Plan), ACT
- ACT Healthy Waterways UM001, Molonglo River rehabilitation, ACT
- Transgrid substation, Williamsdale NSW
- Enlarged Cotter Dam (ECD) plant trials + ECD stage 2, Cotter ACT
- Tidbinbilla Nature Reserve, Tidbinbilla ACT
- Molonglo NES Plan Pink tailed worm lizard habitat restoration, ACT
- Golden Sunmoth Habitat Restoration, Macgregor ACT
- Gungahlin Drive extension and wetlands (GDE) ACT
- Edwin lands, Queanbeyan NSW
- Patch K habitat restoration, Molonglo (NES plan) ACT
- Boco Rock Windfarm, Nimmitabel NSW

wetlands and water quality ponds

- ACT Healthy Waterways, 9 projects, various sites, ACT;
- Kingston Foreshore 'Eco pond' and Wetlands, Kingston ACT
- Eastern Valley Way Water Quality Pond, Belconnen ACT
- Tidbinbilla Nature Reserve Wetlands, Tidbinbilla ACT
- Jacka water quality control, Jacka ACT
- Brindabella Estate water quality ponds, West Macgregor ACT

playgrounds and parks

- Moncrieff Community Recreational Irrigated Park (CRIP), Moncrieff ACT
- Boundless, Commonwealth Park ACT
- Brindabella Estate stage 1A, 1B, 2A, 2B and E1 5 playgrounds, West Macgregor ACT
- Brindabella Estate 2 stage 5 playground, West Macgregor ACT
- Broadview Estate stage 3 and 8 playgrounds, Ngunnawal ACT
- Iterra Grove playground, Ngunnawal ACT

commercial developments and public spaces

- Canberra Islamic Centre, Monash ACT
- Canberra Light Rail (Metro) Trial Landscape, Mitchell ACT
- Canberra Avenue Centenary Tree planting, QBN and Fyshwick ACT
- Bonner Open Space, Bonner ACT
- Swedish Embassy, Yarralumla ACT
- Van Lang Village Multi units Harrison, ACT
- Jacka Parkside and Creekside Multi Units, Jacka ACT
- Canberra Avenue Transitway, Fyshwick ACT
- Monaro Highway Duplication and Canberra Avenue Transitway, Fyshwick ACT
- Nexus Multi units, Harrison ACT
- Horizon Multi Units, Coombs ACT
- Murrumbateman Carpark, NSW

Production Nursery 1

Major Plant Supply

major plant supply

Project Name	Majura Parkway, Majura / Pialligo ACT – 600,000 plants
Project type	Seed collection, plant propagation and supply
Completion date + duration	Completed: June 2016 / Duration: 2 years
Project description	Grow to order and supply endemic grasses, forbs, shrubs and trees specified by the landscape design. Supply of Lomandra 'verdax', Provincial's own PBR plant
Project Value	\$875, 000
Qty of plants supplied	600,000
Project location	Majura Parkway, ACT
Client	Complete Turf Landscaping
Client contact (referee)	Michael Waring - 0414 239 441; md@cticanberra.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director

major plant supply

Project Name	Canberra Light Rail (Canberra Metro) Gungahlin to Civic ACT 1, 800, 000 plants
Project type	Seed collection, plant propagation and supply
Completion date + duration	April 2017 - Current
Project description	Grow to order and supply endemic grasses, forbs, shrubs and trees specified by the landscape design. Consultation on plant species and supply
Project Value	\$2, 400, 000
Qty of plants supplied	1, 800 000
Project location	Gungahlin to Civic ACT
Client	Canberra Metro
Client contact (referee)	Patrick Giltrap - 0414 491 007; Patrick.Giltrap@canberra-metro.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director

Brindabella Estate 1 West Macgregor ACT

new estates and subdivisions

new estates and subdivisions

Project Name	Brindabella Estate 1, West Macgregor ACT (incl. Golden sun moth habitat conservation and water quality control ponds)
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Completed: 2013 / Duration: 3 years
Project description	Principal contractor on new subdivision landscape works including all landscape construction, plant supply, softscaping and hardscaping as required - 813 dwellings landscaped, 5 stand alone Multi Unit complexes landscaped, public and open spaces, verges, construction of 3 parks and playgrounds, restoration of remnant tree areas, dryland grassing, construction of 5 bio – retention / water quality ponds, restoration of Golden Sun Moth habitat and extended maintenance. Canberra's 1 st native grass verged subdivision - this project stands alone in its use of local plant species, appropriate site preparation and reduced maintenance requirements.
Project Value	\$4,500 000
Qty of plants supplied	80,000
Project location	West MacGregor, Canberra
Client	Village Building Company / CEC #19
Client contact (referee)	Daniel Collings - 6242 3400; dcollings@villagebuilding.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial Personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Manager, Megan Brady: Quality Manager

new estates and subdivisions

Project Name	Ginninderra Estate, Belconnen ACT
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Completed: June 2019 / Duration: 1 year
Project description	Ginninderra Estate has 350 dwellings across 20 hectares of land with views spanning to the Brindabella Mountains. Principal contractor on new subdivision landscape works including all landscape construction, plant supply, softscaping and hardscaping as required - public and open spaces and verges, dryland grassing, edging and granite.
Project Value	\$300, 000
Qty of plants supplied	5, 000
Project location	Belconnen, ACT
Client	Canberra Contractors
Client contact (referee)	Daniel Hill - 0433 407 237; daniel@canberracontractors.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial Personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Manager, Megan Brady: Quality Manager

new estates and subdivisions

Project Name	Brindabella Estate 2, West Macgregor ACT (incl. water quality control ponds)
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Completed: November 2015 / Duration: 3 years
Project description	Principal contractor on new subdivision landscape works including all landscape construction, plant supply, softscaping and hardscaping as required - 547 dwellings landscaped, public and open spaces, verges, construction of 3 parks and playgrounds, restoration of remnant tree areas, dryland grassing, 3 bio – retention / water quality ponds and extended maintenance.
Project Value	\$3,500 000
Qty of plants supplied	85,000
Project location	West Macgregor, Canberra
Client	Village Building Company / CEC #22
Client contact (referee)	Greg Garner - 6242 3400; ggarner@villagebuilding.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director. Justin Hurley-Ley: Operations Manager, Luke Powell: Landscape Manager, Megan Brady: Quality Manager

new estates and subdivisions

Project Name	Broadview Estate, Ngunnawal ACT
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Current: Duration: 3 years
Project description	Principal contractor on new subdivision landscape works including all plant supply, softscaping and hardscaping as required - 556 dwellings, all public and open spaces, dryland grassing, verges, 3 playgrounds, restoration of remnant tree areas, dryland grassing, 2 bio – retention / water quality ponds and maintenance.
Project Value	\$1, 500 000
Qty of plants supplied	40,000
Project location	Ngunnawal, Canberra
Client	Village Building Company / Canberra Estates Consortium #30
Client contact (referee)	Greg Garner - 6242 3400; ggarner@villagebuilding.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director. Justin Hurley-Ley: Operations Manager, Luke Powell: Landscape Manager, Megan Brady: Quality Manager

new estates and subdivisions

Project Name	Forde Estate Soft-scape and Maintenance, Forde ACT
Project type	Plant supply, Softscape and Maintenance
Completion date + duration	Completed: June 2014 / Duration: 18 months
Project description	Landscape works, plant supply, installation and extended maintenance. Preparation of estate for handover to TAMS asset acceptance
Project Value	\$540,000
Qty of plants supplied	20,000
Project location	Forde, Canberra
Client	Canberra Investment Corporation (CIC) / Forde Developments
Client contact (referee)	Chris Daly - 6230 0800; Chris.Daly@cicaustralia.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Manager, Megan Brady: Quality Manager

Project Name	Dunlop Parkside, Dunlop ACT
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Completed: 2015 / Duration: 2 years
Project description	Principal contractor on new subdivision landscape works including all plant supply, softscaping and hardscaping as required - public and open spaces, verges, dryland grassing and maintenance.
Project Value	\$600, 000
Qty of plants supplied	5000
Project location	Franklin ACT
Client	Village Building Company
Client contact (referee)	Mark Azzopardi - 6242 3400; mazzopardi@villagebuilding.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Manager, Megan Brady: Quality Manager

new estates and subdivisions

Project Name	Franklin Stonebridge Estate, Franklin ACT
Project type	Plant supply, Hard and Soft Landscaping, Maintenance
Completion date + duration	Completed: 2014 / Duration: 2 years
Project description	Principal contractor on new subdivision landscape works including all plant supply, softscaping and hardscaping as required - public and open spaces, verges, dryland grassing and maintenance.

Tidbinbilla Nature Reserve

Revegetation and Rehabilitation

revegetation and rehabilitation

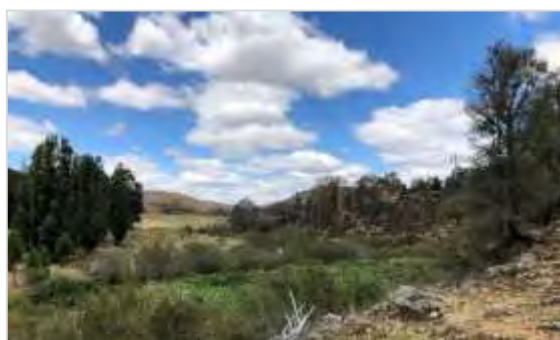

Project Name	Barrer Restoration, ACT
Project completion date and duration	2 Year project ending June 2019
Project description	The Barrer restoration project aims to restore and enhance 60 hectares of exotic pine plantation, native woodland and grassland habitat through the propagation and installation of endemic flora, collection and spreading of endemic seed and follow up maintenance for three years.
Project Value	\$710,000
Quantity of plants supplied	50 000+
Project location	Molonglo River Reserve
Client organisation	ACT Government Procurement & Capital Works
Client contact person (referee)	Darren le Roux - 0450 629 601; Darren.LeRoux@act.gov.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Luke Powell: Landscape Manager; Scott Macgregor Fraser: Landscape and Environmental Services Supervisor, Hugh Bailey and Brandon Dean: Site Supervisor's

revegetation and rehabilitation

Project Name	ACT Healthy Waterways, UM001, Molonglo River Rehabilitation, ACT
Project type	Waterway rehabilitation, plant propagation and supply, integrated pest management, extended maintenance over 2 years, rock chutes in gullies
Completion date + duration	Commenced December 2018 - Current / Duration 60 months
Project description	<p>This major rehabilitation project over 4.5km of the Molonglo River involves the restoration of the Molonglo River located from the Northern edge of Oaks Estate, under Pialligo Avenue and up to Sutton Road. The restoration will include revegetation along the river and the four major gullies, weed control and the installation of grade control structures to stabilise the four gullies to prevent further sedimentation. This important site encompasses areas of ecological, heritage and aboriginal significance. Significantly, there are EPBC listed plant communities present that require careful management (White Box - Yellow Box - Blakely's Gum grassy woodlands and derived grasslands), 3 weeds of National significance (WONS) and Aboriginal Corroboree grounds</p> <p>Works encompass: a massive 2000 hours weed control of multiple invasive species and Integrated Pest Management for rabbit control; Civil rock chutes for erosion control in 4 Gullies; 4.5Km of stock proof fencing and rabbit proof netting installation; Seed collection, supply and installation of 92, 0000 + local plants and extended maintenance for 2 years following revegetation</p>
Project Value	\$3, 000, 000
	92, 000
Project location	Molonglo River ACT / NSW
Client	Construction Control Australia P/L for ACT Govt
Client contact (referee)	Wade Liu - 0447 041 352; WLiou@ccontrol.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Luke Powell: Landscape Manager; Scott Macgregor Fraser: Landscape and Environmental Services Supervisor, Hugh Bailey and Brandon Dean: Site Supervisor's

revegetation and rehabilitation

Project Name	Williamsdale Trans-Grid Electrical Substation Revegetation
Project type	Seed collection, direct seeding, Plant supply, Revegetation, Maintenance
Completion date + duration	Completed: November 2012 / Duration: 12 months
Project description	Endangered Ecological Community Restoration – Seed collection, grow plants to order and supply endemic grasses, forbs, shrubs and trees, specified by the landscape design. Revegetation of surrounding disturbed areas and maintenance. Development of landscape management plans for endangered ecological community
Project Value	\$210,000
Qty of plants supplied	120,000
Project location	Williamsdale NSW
Client	Downer EDI Engineering / Downer Australia
Client contact (referee)	Ricky Bridge - 9879 8512; Ricky.BRIDGE@downerediengineering.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator

revegetation and rehabilitation

Project Name	Enlarged Cotter Dam Rehabilitation + ECD Biodiversity Offset Plantings and Enlarged Cotter Dam (ECD) plant trials + ECD stage 2
Project type	Seed Collection, Plant supply and installation, Maintenance
Completion date + duration	Completed: October 2014 / Duration: 12 months
Project description	Restoration and revegetation project at Cotter Dam + Biodiversity Offset plantings. Site preparation, supply and install local species and maintain. Plant locally endemic trees and shrub species to areas disturbed during the construction phase of the Enlargement of the Cotter Dam project, maintenance for 12 months with a 90% survival rate. In conjunction with an offset project to rehabilitate and enhance the surrounding landscape by installing endemic tree and shrub species throughout the existing vegetation.
Project Value	\$115,000
Qty of plants supplied	3, 500
Project location	Cotter Dam
Client	Bulk Water Alliance
Client contact (referee)	John Turville - 6175 2400; John.Turville@bwa.actew.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator, Hugh Bailey: Site Supervisor

revegetation and rehabilitation

Project Name	Tidbinbilla Nature Reserve Revegetation and Wetlands, Tidbinbilla
Project type	Plant supply and Revegetation, Wetlands Creation
Completion date + duration	Completed: 2010
Project description	Forest, grassland and wetland rehabilitation post-ACT fires. Supply and plant
Project Value	\$200,000
Qty of plants supplied	120, 000
Project location	Tidbinbilla, ACT
Client	IQON
Client contact (referee)	Helen Badger - 6282 5977; hbadger@iqon.com.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator

revegetation and rehabilitation

Project Name	Molonglo NES Plan Pink-tailed Worm-lizard habitat restoration
Project type	Provenance seed collection, propagation and plant supply
Completion date + duration	Complete: April 2015 / Duration: 5 months
Project description	Provenance seed collection, propagation and plant supply
Project Value	\$35,000
Qty of plants supplied	44,750
Project location	Molonglo Valley
Client	ACT Government, Parks and Conservation (PCS) - Territory and Municipal Services Directorate
Client contact (referee)	Richard Milner - 0478 407 617; Richard.Milner@act.gov.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Luke Powell: Landscape Manager; Scott Macgregor Fraser: Landscape and Environmental Services Supervisor, Hugh Bailey and Brandon Dean: Site Supervisor's

Project Name	Golden Sunmoth Habitat Restoration
Project type	Plant supply, Revegetation, Maintenance
Completion date + duration	Complete: March 2015 / Duration: 5 months
Project description	Site preparation, planting and seeding of food and habitat grass species to enhance the habitat of the critically endangered Golden Sun moth (<i>Synemon plana</i>) within a recognised remnant population area as part of a development offset.
Project Value	\$20,000
Qty of plants supplied	1,000
Project location	Goulburn
Client	Anglican Diocese of Canberra & Goulburn
Client contact (referee)	Point Project Management - 6248 0811
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator, Scott Macgregor Fraser, Hugh Bailey and Brandon Dean: Site Supervisor's

revegetation and rehabilitation

Project Name	Gungahlin Drive Highway extension revegetation, ACT
Project type	Seed collection, Plant supply and installation, Maintenance
Completion date + duration	Completed: 2011 / Duration: 9 months
Project description	Construction site and roadside rehabilitation. Grow to order and supply endemic grasses, forbs, shrubs and trees specified by the landscape design.
Project Value	\$400,000
Qty of plants supplied	300,000
Project location	Gungahlin, ACT
Client	CLC Landscaping (formerly CSP)
Client contact (referee)	Karen Brien - 6248 8800
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator

revegetation and rehabilitation

Project Name	Edwin Lands Roadside Rehabilitation, Queanbeyan NSW
Project type	Plant supply and installation, Maintenance
Completion date + duration	Completed: June 2015 / Duration: 3 months
Project description	Supply and plant a 3km median strip with Lomandra 'verday' (Provincial's own PBR plant) and rehabilitate disturbed roadside with endemic grass, forb, shrub and tree species.
Project Value	\$20,000
Qty of plants supplied	5000
Project location	Edwin Lands parkway, Queanbeyan NSW
Client	CLC Landscaping / Queanbeyan City Council
Client contact (referee)	Karen Brien - 6248 8800
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Justin Hurley-Ley: Landscape Supervisor, Megan Brady: Project Administrator, Hugh Bailey and Brandon Dean: Site Supervisor's

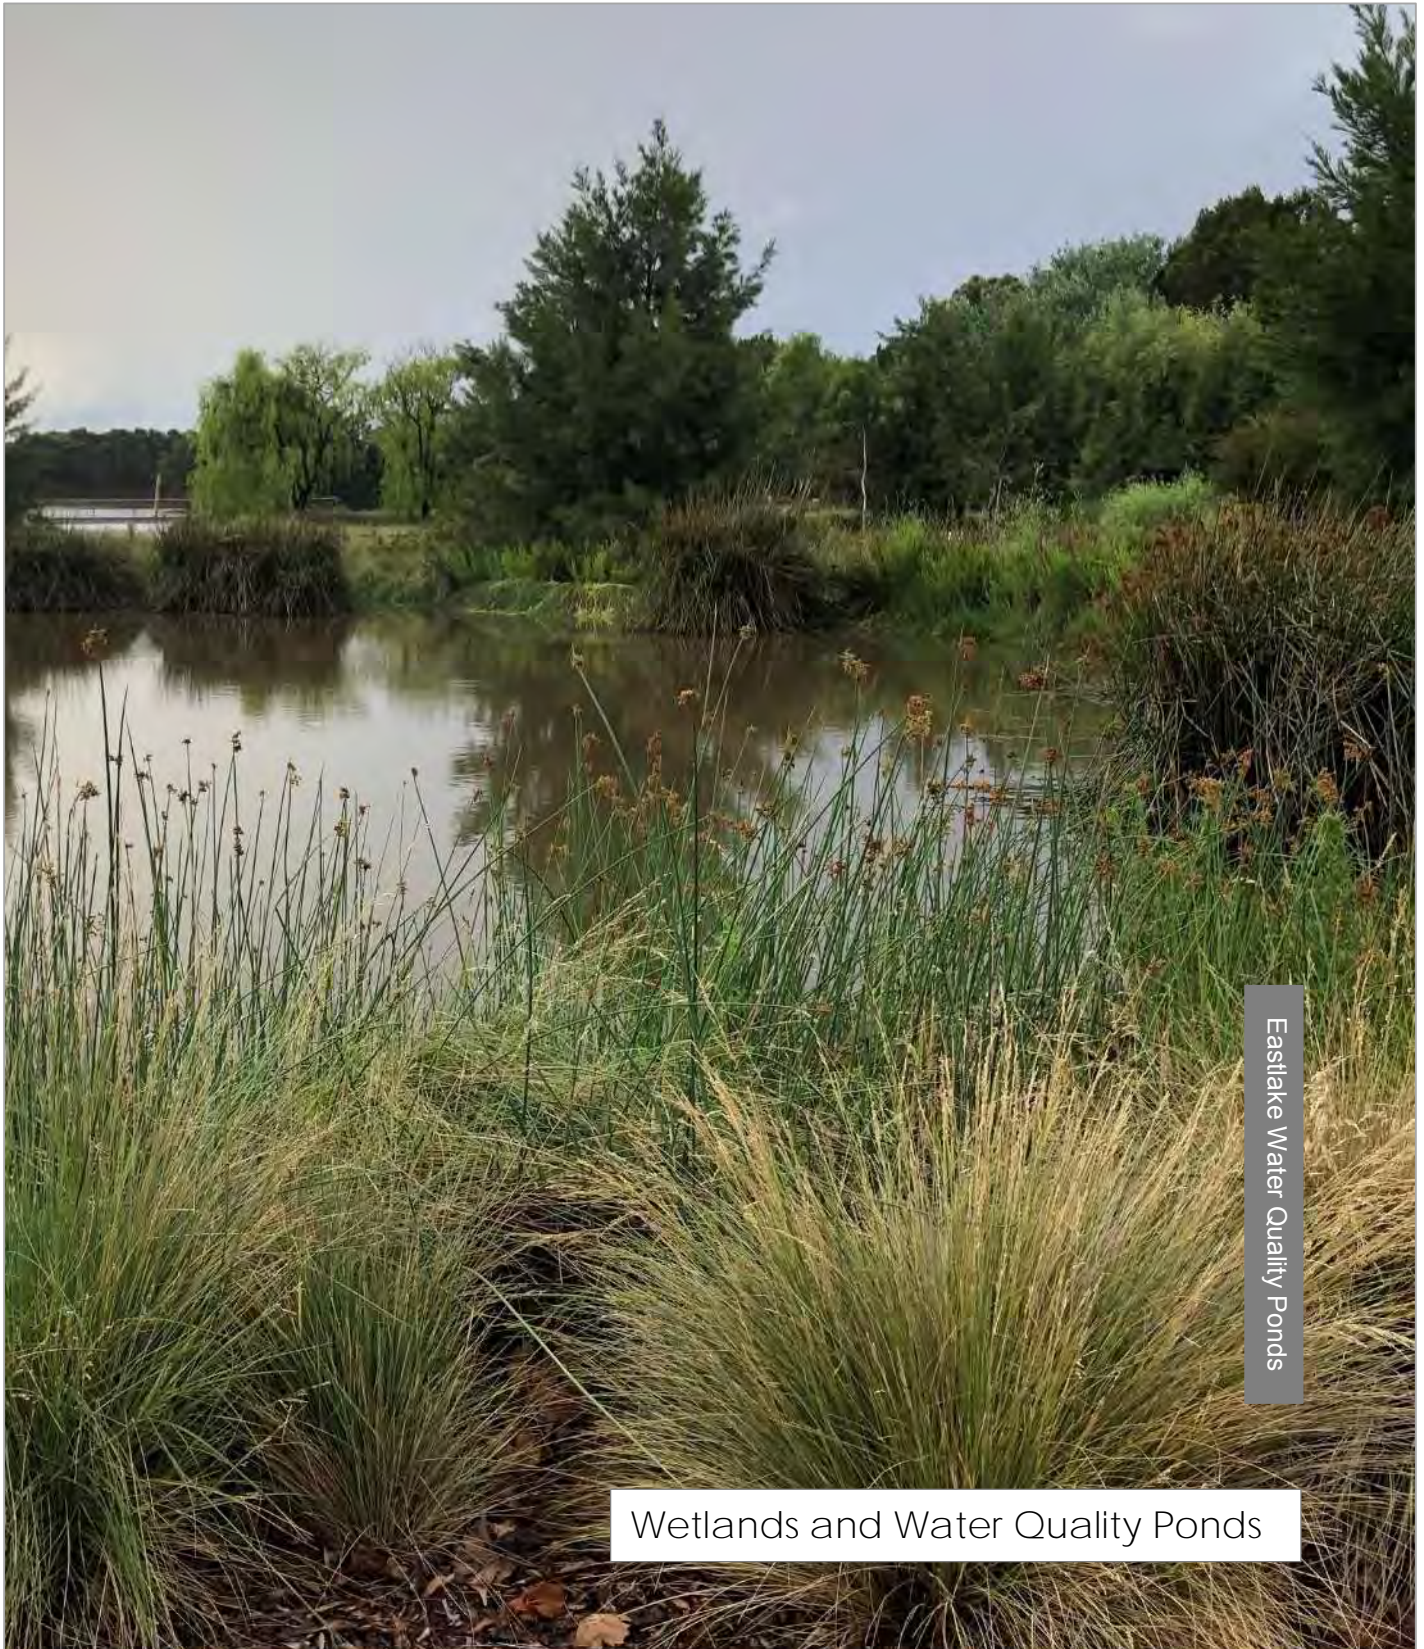

revegetation and rehabilitation

Project Name	Patch K Restoration
Project type	Provenance seed collection, propagation and plant supply, revegetation, extended maintenance
Completion date + duration	Completed: June 2016 / Duration: 15 months
Project description	Restoration to enhance Pink-Tail Worm-Lizard habitat and sympathetic fire hazard reduction. Supply, plant and maintenance. As part of a study into habitat enhancement of the Pink-Tail Worm lizard (<i>Aprasia parapulchella</i>). Provincial sourced local seed from the Molonglo River corridor, propagated the plants and installed them to design, amongst spread rocky debris typical of the worm lizard's habitat. Ongoing maintenance is being carried out to ensure the establishment and persistence of the grassland habitat for a 12 month period
Project Value	\$136,000
Qty of plants / seed supplied	45,000 plants / 150kgs native seed
Project location	Molonglo River Reserve
Client	ACT Government Procurement & Capital Works
Client contact (referee)	Katherine Ashley - 6205 7646; Katherine.Ashley@act.gov.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Luke Powell: Landscape Manager; Scott Macgregor Fraser: Landscape and Environmental Services Supervisor, Hugh Bailey and Brandon Dean: Site Supervisor's

Eastlake Water Quality Ponds

Wetlands and Water Quality Ponds

wetlands and water quality ponds

Project Name	ACT Healthy Waterways, Asset FW019, Jerrabomberra Creek, Narrabundah ACT
Project type	Waterway rehabilitation, soft-scaping, plant propagation and supply, maintenance
Completion date + duration	December 2018 - Current
Project description	<p>This project forms part of the waterway rehabilitation works along the Molonglo River corridor and its associated tributaries from the downstream extent of Molonglo Gorge Nature Reserve to Oaks End Road and the Queanbeyan River from the ACT border to the confluence with the Molonglo River. These works are designed to provide both surface water quality improvement and to improve visual aesthetics through an increased diversity of native vegetation and reduction in weed species</p> <p>This project includes topsoiling, dryland grassing and BSM, mulching, supply and installation of 15,000m² of Coir Jute Erosion Control matting, plant supply and installation, boulders, rock seating and furniture installation and maintenance</p>
Project Value	\$220,000
Project location	Jerrabomberra Creek, Narrabundah ACT
Client	HUON
Client contact (referee)	Mathanraj Theivakularatnam - 0437 229 290; mathanraj@huon.net.au
Liquidated damages + Current litigation	NIL
Environmental management + Safety Record	No accidents or incidents; No environmental management issues
Provincial personnel	Lisa Roberts: Project Manager, David Charlton: Nursery Director, Luke Powell: Landscape Manager; Scott Macgregor Fraser: Landscape and Environmental Services Supervisor, Hugh Bailey and Brandon Dean: Site Supervisor's

wetlands and water quality ponds

Project Name	ACT Healthy Waterways, Landscape Packages 3, 4 and 7, Multiple Sites, ACT
Project type	Waterway rehabilitation and Wetlands Creation, soft-scaping, plant propagation and supply, maintenance
Completion date + duration	September 2018 - Current
Project description	<p>This project forms part of the waterway rehabilitation works along the Molonglo River corridor and its associated tributaries from the downstream extent of Molonglo Gorge Nature Reserve to Oaks End Road and the Queanbeyan River from the ACT border to the confluence with the Molonglo River.
