white correa

Dense rounded shrub to growing to 1.5m in height and 2m in width. Attractive rounded grey-green leaves and starry white flowers.

water hardiness

top ten

bird attracting
bush tucker
coastal gardens
fire retardant
shady gardens

origin	Coastal NSW, Vic, Tas, SA.
cultural notes	A very hardy plant naturally occurring in coastal areas. Grow in full sun or part shade in well drained soils.
maintenance	Can be pruned to maintain shape.
tolerates	Very resistant to salt spray, frost tolerant, drought tolerant once established.
flowering season	Late Autumn and Winter. Can flower most of the year depending on climate.
flower colour	Starry white flowers. A pink flowering variety is also available. The flower is open, unlike most correa species.
foliage colour	Grey-green rounded leaves with short hairs on the underside.
width	up to 2m
height	up to 1.5m
plant spacing	100cm apart Can be used as a hedge plant.
recommended uses	Very handy in coastal gardens due to its salt tolerance. Can be used as a hedge plant.
