

# Magnolia grandiflora 'Little Gem'

Magnolia 'Little Gem'

This hardy deciduous tree is a perfect low maintenance bush that is oval in shape. Known for its beautiful big white-cream flowers. These flowers have a lovely soft scent. Its dense foliage can be a beneficial screen for gardens, not to mention its beautiful glossy green colour, a great addition as a feature tree.

Origin	The South-eastern United States of America.
Size	Up to 4 metres high, Up to 3 metres wide.
Cultural Notes	A hardy tree with low maintenance once established. Prune in winter is required. Position in full sun to part shade.
Tolerates	Relatively pest and disease-free. Frost hardy once established. Tolerant of heat and some flooding.
Flowers / Flowering Season	Slightly scented, large white flowers are produced at the ends of the tress thick stems. Will show from spring to autumn.
Foliage Colour or Type	Foliage is dense. The leaves are glossy deep green on the top side and brown on the underside with a felt texture.
Soil Type	Prefers well-draining, moist soil. Will tolerate varying soil types and neutral to acidic pH levels.
Suited to	Perfect for smaller gardens, can be used as a screen. Good for streetscapes or grown in containers, tolerates limited soil.
