

# Pyrus calleryana 'Aristocrat'

## Ornamental Pear 'Aristocrat'

A medium-sized deciduous tree with horizontal branches, the canopy shape ranges from conical to oval. White blossoms bloom in spring. In autumn, the foliage turns a beautiful array of seasonal colours. These factors make it a perfect specimen tree, great for ornamental purposes.

Origin	China, Vietnam.
Size	Up to 11 metres high, Up to 7 metres wide.
Cultural Notes	This tree does best in full sun. Pruning is not required.
Tolerates	Once established, this tree is quite tolerant to a range of conditions. It is drought, some frost and pollution tolerant.
Flowers / Flowering Season	White-pink blossoms appear in the springtime, covering much of the branches and canopy.
Foliage Colour or Type	Bright green coloured foliage that turns into colours from yellow to red through autumn before falling.
Soil Type	Prefers well-draining soil, can tolerate most soil types and pH levels.
Suited to	Perfect for medium to large garden areas, streetscapes and parkland.
